

Stabbing, burning pain affecting your life?

www.LoftusMD.com

If you or someone you know suffers with painful diabetic neuropathy - an aching, burning, stabbing, or tingling sensation in the feet - you may be eligible to participate in a research study of medications commonly used to treat this condition.

Qualified participants must be:

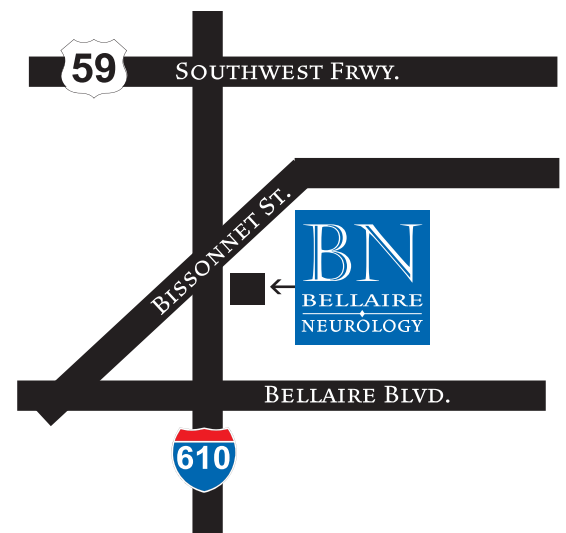

- Currently taking the medication Gabapentin which is also known under the brand name Neurontin™
- Experiencing at least moderate pain in both feet
- Diagnosed with Type 1 or 2 Diabetes

Participants will not be charged for study-related office visits, medical evaluations, or study medication.
